

Faulty goods should be returned to their place of purchase, no product can be returned without prior permission. This guarantee does not effect your statutory rights. In the event of stock shortages CLARKE International reserves the right to replace faulty items with a similar item of equivalent value.

Your binoculars are guaranteed by Clarke International for a period of 10 years from the date of purchase. Please keep your receipt as proof of purchase. The guarantee covers the replacement or repair free of charge in the unlikely event of the equipment becoming faulty as a result of faulty manufacturing; no liability can be accepted for faults arising from accident or misuse. This guarantee is invalid if the product is found to have been abused, dropped or tampered with in any way, or not used for the purpose for which it was intended.

**BIN0840**  
**4499110**

**BIN1050**  
**4499115**

Thank you for purchasing these **CLARKE** binoculars.

Please read these instructions carefully before using your binoculars.

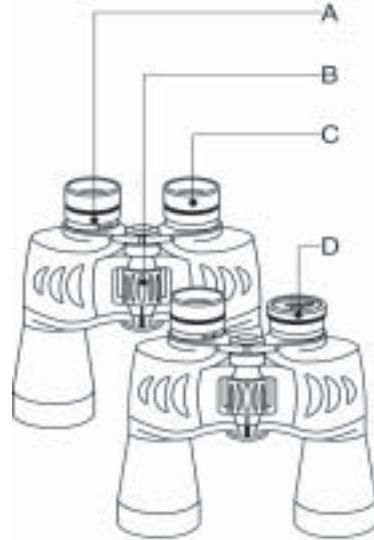

Your new binoculars are manufactured to a very high standard, if used as directed will ensure you achieve many years of trouble free use.

### SAFETY PRECAUTIONS

**NEVER** look directly at the sun with binoculars, as by doing so could lead to permanent loss of vision.

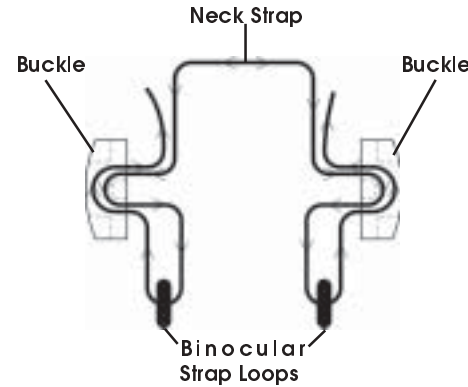

**NEVER** place the binoculars in a position where the sun can be directed through the lenses, Fire may result as a consequence.

- A - Right eyepiece with diopter scale (+ ● -).
- B - Focusing wheel.
- C - Roll down eyecups.
- D - Eyecup rolled down.

### Attaching Neck Strap

Before using your binoculars for the first time, ensure the neck strap is fitted securely.

### Adjusting the focus wheel

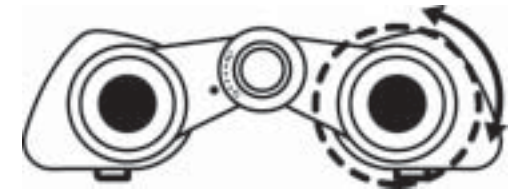

While looking through the left eyepiece (with your left eye), rotate the focus wheel in both directions, until the subject is in focus

### Adjusting the right eyepiece

While looking through the right eyepiece (with your right eye), rotate the right lens until the same subject is in focus.

Again note the reading on the diopter scale for future use.

### Specifications

Classic style compact binoculars with centre focusing wheel and ruby coated lenses.

#### Model Bin0840 Part No 4499110

Magnification	Objective Lens Dia	Prism Type	Weight	Length	Field Of View (Width)
8X	40mm	Porro Prism	0.7Kg	150mm	143m@1000m

#### Model Bin1050 Part No 4499115

Magnification	Objective Lens Dia	Prism Type	Weight	Length	Field Of View (Width)
10X	50mm	Porro Prism	0.8Kg	170mm	126m@1000m

NOTE On both models, the eyecups can be rolled down for users wearing glasses.

### TAKING CARE OF YOUR BINOCULARS

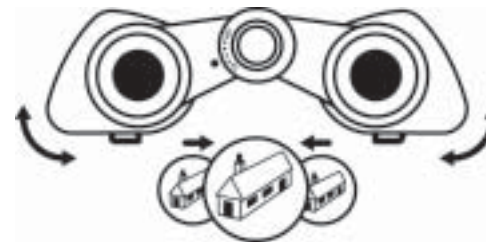

- Remove any dust from the lenses with a blower and/or a soft lens brush which can be purchased from any camera shop. The lenses can be cleaned using approved lens cleaning solution and a soft lens cloth.
- The body can be wiped over with a soft damp cloth, **DO NOT** use any chemicals or abrasive cleaners.
- When the binoculars are not to be used for long periods, store them in a well ventilated location, avoiding high temperatures and humidity.
- Avoid strong impacts caused by bumping or dropping the binoculars.
- **DO NOT** apply excessive force when using the binoculars.

### Instructions For Use

#### Adjusting the eye interval

Remove dust caps from all four lenses, hold the binoculars in the normal viewing position and move the unit slowly as shown in the figure below until the field of view becomes a single circle.

Note the reading on the scale for future use.

Finally, using both eyes, rotate the focus wheel until the subject is in optimum focus.
