## 6 Litre FRUIT PRESS

Model No. FP6

Part No: 3500310

Thank you for purchasing this Clarke 6 litre Fruit Press, which, if used according to this instruction leaflet, will provide you with many years of satisfactory service.

**IMPORTANT!**

**Before use, ALL components must be sterilised and all traces of oil removed to avoid the possibility of contamination of the produce. Rinse thoroughly in clean water.**

The base of the unit should be screwed to a firm, solid base, using the holes in the feet.

A gauze sack is provided, for use when pressing softer fruits. Harder fruits - apple, pear etc., should be cut into small pieces and ideally crushed using a mallet or similar before placing in the sack.

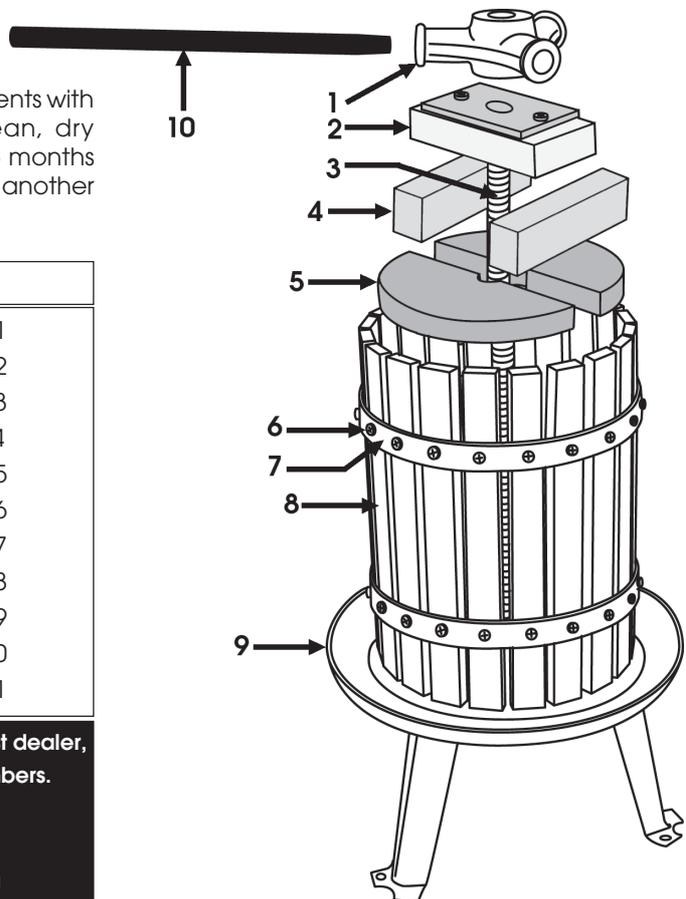

Put sack, with fruit, into the cage, pressing down by hand. Place the Collars (5) on top, ensuring they are central about the cage, then place the Wooden blocks (4), (if there is sufficient room) followed by the Pressure Plate (2) on top of these, in the manner shown in the illustration. A second pair of blocks may be inserted if/when room allows.

Screw on the trunnion (1) and use the handle (10) to press the fruit down into the cage. In no account must an extension be used on the handle.

Ensure a container is placed beneath the run-off point in the base (9) to collect the juice. If the blocks (4) were not used for the first press, unscrew the trunnion, sufficient for the blocks to be inserted, then screw down again.

When finished with, the complete unit must be thoroughly washed in a mild detergent, rinsed in clean water and dried.

If left for prolonged periods, coat all metal components with a thin film of vegetable oil and store in a clean, dry environment. Check its condition at least every 6 months and if mould is apparent, wash, rinse, dry and apply another film of vegetable oil to its metal components.

No.	Description	Part No.
1	Trunnion	ROBCFP001
2	Pressure Plate	ROBCFP002
3	Threaded Rod	ROBCFP003
4	Wooden Blocks (4 pcs)	ROBCFP004
5	Collar	ROBCFP005
6	Screw	ROBCFP006
7	Steel Band	ROBCFP007
8	Slat	ROBCFP008
9	Base	ROBCFP009
10	Handle	ROBCFP010
-	Fruit Sack (Not Shown)	ROBCFP011
