

Store your flask with the cup and stopper removed.

Using Your Flask

For Best Results Always preheat or precool your flask before filling with your chosen drink.

To preheat or precool, fill the flask with hot or cold water and allow to stand for 1-2 minutes, empty flask and fill with prepared drink to just below the stopper, DO NOT overfill.

Ensure the pressure release valve is closed by pressing and releasing the button on the stopper (valve is closed when ring around button is pressed down).

Screw stopper down firmly, tilt flask over sink to check for leaking.
