SPECIFICATION

Model No	Part No	Dims (lxdxh)mm	Weight	Total Load	Worktop Load	Shelf Load
CWB1200E	7637715	1220 x 646 x 886	30 kg	600 kg	300 kg	300 kg
CWB1550E	7637720	1524 x 646 x 886	35 kg	600 kg	300 kg	300 kg
CWB1800E	7637725	1829 x 646 x 886	40 kg	600 kg	300 kg	300 kg

ASSEMBLY

The workbench is best assembled with the use of an assistant.

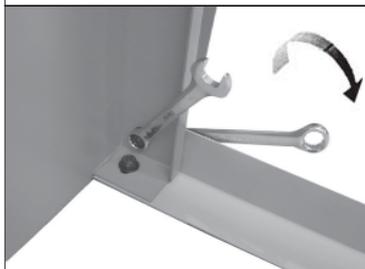

1. Identify which is the front and rear of both the lower shelf and the table top. Note; the table top and shelf have an 'open' front and an upstand at the rear.

Note: the legs will be positioned to the outside of the table top and shelf. All fixings should have the bolt head on the visible face of the assembly.

2. Rest the workbench top on its rear edge.
3. At each of the bolt holes attach a leg, with the foot pad downwards, using two bolts with each leg. Ensure a flat washer is used with both the nut and bolt.

Lift the assembly clear of the floor to install the second nut and bolt. Nip up the nuts - DO NOT fully tighten.

4. With the help of an assistant, position the lower shelf on the legs, and bolt it to the legs. DO NOT fully tighten the nuts.
5. Attach the second pair of legs in a similar manner using two bolts, nuts, and flat washers where each leg joins a shelf. DO NOT fully tighten.
6. Finally, turn the workbench on to its feet and wriggle it vigorously to ensure it is completely stable and resting evenly on all four legs, then fully tighten all the nuts/bolts. Two spanners will be required to tighten the fixings, moving in opposition to each other.
7. The workbench is then ready to use.
